

GRAMIN VIKAS TRUST WEST BENGAL

Training Programme on Cashew Plantation; Maintenance & Grafting

A training programme on Cashew Plantation, Maintenance and Grafting was organized by Gramin Vikas Trust on 9th February 2013, wherein more than sixty (60) WADI farmers from Bandwan and Manbazar-II WADI projects, along with field animators, GVT officials participated in a training process.

Objective of the Training was:

To train the WADI beneficiaries regarding proper and scientific techniques of Cashew Plantation and maintenance, proper application of fertilizer, pesticide and insecticide, grafting and pruning –etc. so that the beneficiaries could apply the gained knowledge efficiently & effectively after planting of cashew plants and can give their inputs under WADI Development Project for ensuring sustainable income in future.

The captioned training program was concluded after screening of power point presentation, immediately after the field visit. Presentation was prepared by Prof. Mini Podwal, which evoked immense response among the participants.
