

Staff Training Organized by RO-Jaipur for Team Building on 15th Dec. 2015

Below are the few glimpses from the staff training, organized by RO-Jaipur wherein 47 staff members from different projects of Rajasthan participated to share their mutual learning, issues, joys, concerns, and vision for the next financial year. In this unique platform the participants who attended NRLI training from 10--12th December also shared their key learning's and proposed action plan for 6 months. In true sense it was a forum for collective learning and a forum for solidarity and team building.
